## ***Like Alice, She Gets 'Curiouser And Curiouser'***

Editor, The News: Like Alice in Wonderland, I'm finding things "curiouser and curiouser".

Why did our State Department ignore frantic warnings from Ambassador Earl T. Smith and promote Communist Castro to power? Why do the CIA and State Department harass Cuban exiles who only want to free their beloved island? As one exile said to another: "Who are you hiding from — Senor Castro?" "No," replied the other, "El Presidente!"

We used to think our 7th Fleet was patrolling the Formosa Strait to protect Chiang Kai-Shek and the free Chinese from the Red Chinese on the mainland. One of our ambassadors now tells it is the other way around!

Our President was killed by a Communist and the official Communist press decreed that their idol, Earl Warren, should head a commission to investigate the crime. Why does Mr. Warren now say the facts might not be known in our generation? Who has the most to gain from a cover-up?

The Russians have murdered three more American fliers but our government continues to sell these murderers wheat at 80 cents a bushel less than we pay for our own bread. Rep. O'Konski of Wisconsin says, "I plead with the American people to rise in protest against this suicidal policy of the United States, where we are feeding our enemy at the expense of the American taxpayers so they can butcher more American fliers as the days go by." How many will protest? How many will not because they would rather line their pockets with Russian gold? The gold we are not even going to get! Modern Judases. Alice in Wonderland woke up from her bad dream but we are going to have to live in ours.

Mrs. Pete Naaden
